Independent Auditors' Report

The Board of Directors and Stockholder Associated Bank Investment Services, Inc.:

We have audited the accompanying statement of financial condition of Associated Investment Services, Inc. (a wholly owned subsidiary of Associated Banc-Corp) (the Company) as of December 31, 2006, and the related statements of income, changes in stockholder's equity, and cash flows for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2006, and the results of its operations and its cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules 1, 2, and 3 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America. Significant accounting and reporting policies follow.

Principal Business Activity

Associated Investment Services, Inc. (the "Company"), a wholly owned subsidiary of Associated Banc-Corp (the "Parent"), is a registered broker and dealer in securities under the Securities: Exchange Act of 1934 and is a member of the National Association of Securities Dealers (NASD) and the Chicago Stock Exchange.

The Company acts as an introducing broker, clears all transactions on a fully disclosed basis with a clearing broker or dealer, and transmits all customer funds and securities to the clearing broker or dealer. Although the Company does not carry customer funds or securities, on occasion it does receive checks made payable to itself, which the Company deposits into its clearing broker account or dealer bank account with an affiliate. Therefore, the Company does not meet all the requirements as set forth in the exemptive provisions of SEC Rule 15c3-3 under paragraph (k)(2)(ii), and must comply with the Determination of Reserve Requirements Pursuant to SEC Rule 15c3-3.

Revenue Recognition

Commissions and related clearing expenses for mutual funds, investment securities, and annuities are recorded on a trade-date basis. Commissions for insurance products are recognized upon insurance company approval of the transaction and when the cash is received.

Management and investment advisory fees are received quarterly but are recognized as earned on a pro rata basis over the term of the contract.

Cash and Cash Equivalents

The Company considers cash and interest bearing deposits with other financial institutions to be cash and cash equivalents.

Cash of \$200,000 has been segregated in a special reserve bank account for the benefit of customers under rule 15c3-3 of the Securities and Exchange Commission.

·Securities Owned

Marketable securities are reported at market value. Unrealized gains or losses are included in profit or loss.

NOTES TO FINANCIAL STATEMENTS

Fixed Assets

Furniture, equipment, software and leasehold improvements are stated at cost less accumulated depreciation and amortization. Furniture, equipment and software are being depreciated on a straight-line basis over the estimated useful lives of the assets. Leasehold improvements are amortized over the lesser of the economic useful life of the improvement or the term of the lease. Maintenance and repair costs are charged to expense as incurred.

Income Taxes

The Company is included in the consolidated federal income tax return filed by the Parent. Federal and state income taxes are calculated as if the Company filed on a separate return basis, and the amount of current tax calculated is remitted to the Parent.

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using currently enacted tax rates. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date.

Use of Estimates in Preparation of Financial Statements

In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates:

NOTE 2 SECURITIES OWNED

The Company carries an investment in a Federated money market fund with an estimated fair value of \$1.06 million at December 31, 2006.

The Company owns 1,000 shares in the Chicago Stock Exchange with an estimated fair value at the quoted bid price of \$33,500 at December 31, 2006.

NOTE 3. RECEIVABLE FROM AND PAYABLE TO BROKER/DEALERS AND CLEARING ORGANIZATION

At December 31, 2006, amounts receivable from and payable to broker/dealers and clearing organizations consist of fees and commissions receivable, and the related charges of customer transactions cleared through another broker/dealer on a fully disclosed basis.

NOTE 4 PAYABLE TO CUSTOMERS

Accounts payable to customers include amounts due on cash and margin transactions.

NOTES TO FINANCIAL STATEMENTS

NOTE 5 INCOME TAXES

Income tax expense (benefit) for the year ended December 31, 2006 consists of the following:

Current:					- I.
Federal			. •	•	\$ 293,117
State	,%	. 4			70,005
Total current	-				-363,122
Deferred:					
Federal			•	: *	(21,497)

 State
 (3,438)

 Total deferred
 (24,935)

 Income tax expense
 \$338,187

Deferred income taxes are provided for the temporary differences between the financial reporting basis and tax basis of the Company's assets and liabilities. The major differences that give rise to the deferred tax assets and liabilities for the year ended December 31, 2006 are as follows:

* **	
Accrued liabilities	\$ 8,795
Premises and Equipment	4,413.
Deferred compensation .	36,801 .
State income taxes	324 :
Total gross deferred tax assets >	. 50,333
Prepaid expenses	(60,216)
Total gross deferred tax liabilities	(60,216)
	1.
Net deferred tax liabilities	\$ (9,883)

The effective tax rate differs from the statutory federal tax rate. The major reasons for this difference are as follows:

			<u>2006</u>	· · · · · · · · · · · · · · · · · · ·
•Federal income tax rate at statutory rate	; ;	•	35.0%	
Increases resulting from:	1		• • •	, · ·
State income taxes (net of federal incom	ne taxes)	•	5.5%	
Other Other	:		2.4%	
- Effective income tax rate.		• .	42.9%	

NOTES TO FINANCIAL STATEMENTS

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets at December 31, 2006 is dependent upon the Company's ability to generate future taxable income during the periods in which those temporary differences become deductible. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more likely than not the Company will realize the benefits of these deferred tax assets at December 31, 2006.

NOTE 6 PENSION AND PROFIT-SHARING PLANS

Substantially all full-time employees of the Company are covered under the noncontributory defined benefit plan (benefit plan) of the Parent. Under the benefit plan, the Company is allocated a portion of the expense, and the pension obligation is recognized by the Parent. The Company's share of pension expense for 2006 was approximately \$214,000.

Substantially all full-time employees of the Company are covered under the 401(k) Profit Sharing and Employee Stock Ownership Plan (savings plan) of the Parent, and employees may make pre-tax contributions up to certain IRS dollar limits. Total expenses related to the Company's contributions to the savings plan was approximately \$135,000 in 2006.

NOTE 7 - COMMITMENTS AND CONTINGENT LIABILITIES

The Company leases office space from its Parent and various entities owned by its Parent under operating lease arrangements that are cancelable under mutual agreement. Lease payments are determined annually based upon base rents and other operating costs and square footage occupied. Rent expense, included in occupancy and equipment on the Statement of Income, for all related-party operating leases totaled approximately \$726,000 in 2006.

In the ordinary course of business, the Company may be named as defendant in or be a party to various pending and threatened legal proceedings. Since it is not possible to formulate a meaningful opinion as to the range of possible outcomes and plaintiff's ultimate damage claims, management cannot estimate the specific possible loss or range of loss that may result from these proceedings. Management believes, based upon current knowledge, that liabilities arising out of any such proceedings (if any) will not have a material adverse effect on the financial position, results of operations or liquidity of the Company.

NOTES TO FINANCIAL STATEMENTS

NOTE 8 RELATED-PARTY TRANSACTIONS

Pension and profit-sharing plan expense allocations are discussed in Note 6.

Terms of leases with the Parent and various entities owned by the Parent are discussed in Note 7.

The Company paid the Parent management and administrative fees of approximately \$862,000 in

A revenue sharing arrangement exists between the Company and Associated Financial Group, LLC (AFG), a wholly owned subsidiary of Associated Bank. National Association (the "bank") which is a wholly owned subsidiary of the Parent. The arrangement was established to account for and allocate revenue with respect to the sale of annuity and insurance products that are distributed by dual employees of the Company and AFG. Shared revenue related to annuity and insurance product sales for 2006 totaled \$10.76 million. Of this amount, approximately \$534,000 was a receivable at December 31, 2006. Product distribution expense payable to an affiliate at December 31, 2006 totaled approximately \$44,000. A revenue sharing agreement was established between the Company and the bank. The agreement provides for the allocation of revenue with respect to the sale of investment and insurance products to customers referred by the bank. Shared revenue expense paid to the bank for 2006 totaled \$2.0 million. A revenue sharing arrangement was established between the Company and Associated Trust Company, National Association which is a wholly owned subsidiary of the Parent, to allocate asset based revenues received from Goldman Sachs; which is calculated off the asset market values of the Company and Associated Trust Company. Other miscellaneous items payable to an affiliate or the Parent totaled approximately \$31,000 at December 31,2006.

NOTE 9 CREDIT RISK

The Company maintains cash balances at a bank, and cash and securities at a clearing broker. Cash accounts at banks are insured by the FDIC for up to \$100,000. Amounts in excess of FDIC insured limits were \$3.7 million at December 31, 2006. The Securities Investor Protection Corporation (SIPC) insures cash and securities up to \$500,000 (although coverage of cash is limited to \$100,000). Amounts in excess of SIPC insured limits were approximately \$658,000 at December 31, 2006, which is the security valuation in excess of the \$400,000 remaining after the \$100,000 cash coverage.

In the normal course of business; the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the customer or other broker is unable to fulfill its contractual obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

NOTES TO FINANCIAL STATEMENTS

The Company's customer securities activities are transacted on either a cash or margin basis. In margin transactions, the Company, through a clearing broker/dealer, extends credit to its customers, subject to various regulatory and internal margin requirements, collateralized by cash and securities in the customers' accounts. In connection with these activities, the clearing broker/dealer executes and clears customer transactions involving the sale of securities not yet purchased, substantially all of which are transacted on a margin basis subject to individual exchange risk in the event margin requirements are not sufficient to fully cover losses that customers may incur. In the event the customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customer's obligations. The clearing broker/dealer, seeks to control the risks associated with the Company's customer activities by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The clearing broker/dealer monitors the Company's customers' required margin levels daily and, pursuant to such guidelines, requires the Company to contact the Company's customers to deposit additional collateral or to reduce positions when necessary.

NOTE 10 NET CAPITAL REQUIREMENTS

The Company is subject to SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2006, the Company had net capital of \$1.72 million which was \$1.47 million in excess of its required net capital of \$250,000. The Company's ratio of aggregate indebtedness to net capital ratio was 0.45 to 1.00 at December 31, 2006.

Independent Auditors' Report on Internal Control Required by SEC Rule 17a-5

The Board of Directors and Stockholder Associated Investment Services, Inc.:

In planning and performing our audit of the financial statements and schedules of Associated Investment Services, Inc. (a wholly owned subsidiary of Associated Banc-Corp) (the Company), for the year ended December 31, 2006, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including tests of compliance with such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g), in the following:

- 1. Making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and the reserve required by rule 15c3-3(e)
- 2. Making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by rule 17a-13
- 3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System
- 4. Obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by rule 15c3-3

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives.

Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2006, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, National Association of Securities Dealers, Inc., and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Kenour

Chicago, Illinois February 26, 2007
